EXPERIENCE

Senior FP&A Advisor

November 2022 – Present

Office of Investment Management & Strategic Finance, the Chickasaw Nation

- Drove executive-ready analytics by conducting ad hoc competitor market analysis in SQL and R, visualized in Tableau and ggplot2, and presented in Canva to influence senior leadership decisions.
- Identified ~\$531M in annual savings over 10 years by modeling and presenting a capital allocation framework linking expenses to earnings, directly informing board discussions and shaping enterprise strategy.
- Centralized reporting by developing an R Shiny dashboard suite for the CEO and CIO, creating a branded platform that accelerated decision-making and demonstrated technical fluency with business acumen.
- Produced best-in-class presentations by leading the design of executive decks in Canva for CEO updates, board meetings, and quarterly reviews, ensuring outputs were compelling, precise, and strategically aligned.
- Directed workstreams by coordinating analysts and subject matter experts under tight timelines, guiding peers to deliver accurate outputs and ensuring leadership deliverables remained cohesive and strategically aligned.

Operational Consultant

January 2021 – November 2022

Office of Strategic Planning, the Chickasaw Nation

- Delivered econometric analysis in R that revealed online advertising was not generating incremental revenue, providing actionable insights that reshaped marketing strategy.
- Estimated \$8M in revenue uplift by applying optimization modeling in Python, solving an unstructured retail placement problem, and developing a variable vendor commission framework for peak areas.
- Optimized workforce scheduling for the largest customer-facing department by modeling in R with labor drivers and constraints, improving customer experience while minimizing costs.
- Prevented \$12M in annual costs by analyzing compensation structures in R and Tableau and presenting polished recommendations in PowerPoint that influenced leadership decisions.

Operational Consultant Intern

June 2018 – December 2020

- Reduced cost of goods sold by 42% for a precision manufacturer through R and SQL inventory optimization models, visualized in Tableau dashboards and delivered as data-backed insights for leadership.
- Improved enterprise benchmarking by standardizing labor metrics with R and Tableau workforce models, enabling cross-functional comparisons and reducing staffing inefficiencies.

AREAS OF EXPERTISE

*Data Visualization & Storytelling in **ggplot2** and **Canva***

*Optimization Modeling in **gurobipy** **Python***

*Machine Learning in **Python** & **R***

*Causal Inference Modeling in **Python** & **R***

***SQL** for Data Science Process (**Azure**, **SQL Server**, **Oracle**)*

*Earnings & Valuation Modeling in **Excel***

*Executive Dashboards in **Tableau**, **R Shiny**, & **Power BI***

*Project Delivery with **GitHub**, **R Markdown**, and **Jupyter***

EDUCATION

*Master of Science, **Data Science and Analytics***

University of Oklahoma, Norman, OK – College of Engineering – GPA: 3.72/4.00

2023

*Bachelor of Business Administration, **Economics and Finance***

University of Oklahoma, Norman, OK – College of Business – GPA: 3.83/4.00 (Special Distinction)

2020
